PASINDU LAKMAL

FULL STACK ENGINEER | TECH ENTHUSIAST

PROFILE

I am a passionate and dedicated Full Stack Engineer with a strong foundation in computer science principles and hands-on experience in coding, debugging, and developing software solutions. With proficiency in languages such as Java, Python, and JavaScript, I am adept at problem-solving and eager to contribute to innovative projects. My academic background, combined with internships and personal projects, has equipped me with a solid understanding of software development life cycles, version control systems, and collaborative tools.

WORK EXPERIENCE

- **Echonlabs(PVT)Ltd** 2024
Trainee Software Engineer
 - Gained hands-on experience in Agile environment to develop enterprise software applications according to business requirements.
 - Learnt and improved technical skills about AngularJS, NestJS and MongoDB.

PROJECTS

amazona(E-Commerce WebApplication)

This is an E-Commerce web site which was developed by using **ReactJS**, **NodeJS**, **ExpressJS**, **MongoDb**. I implemented a payment gateway(paypal) and I wish to add analytics using graphs.

POS System backend project

This is an ongoing backend project with **SpringBoot** and **MySQL**. I already used postman and swagger UI for testing. As well as I wish to create a frontend for this POS System using **ReactJS**.

Employee Management System

This is a full-stack project which was developed by using **ReactJS**, **SpringBoot** and **MySQL**.

CRUD Application React and .NET

This is also a full-stack project. I developed this project by using **ReactJS**, **.NET** and **Microsoft SQL**. This is a kind of a student management system and I gained fully experience in full stack development.

Login App

This is an ongoing login web application which is being developed by using **ReactJS**, **NodeJS**, **ExpressJS**, **MongoDb**. In here I wish to implement user login, user registration, user profile update, reset password with email verification. As well as I wish to use JWT for security purposes in this application.

Portfolio Website

This portfolio website was developed using **AngularJS** with **ngx bootstrap**. As well as I used angular material UI's.

Portfolio Website - II

This portfolio website also was developed by using **AngularJS** with **bootstrap**. As well as I used **rxjs** and I gained experience on **rxjs**.
